SB Semi automatic carton sealer

SB Semi automatic carton sealer

The SIRTEC SB semi automatic carton sealer has been developed in order to close a big variety of boxes. The design has been foreseen, to work in a very flexibility way.

Where in many cases two machines should be intergraded in the packaging process, the SIRTEC SB can easily be adapted to close small and big boxes.

A number of PATENTS are making this machine unique in the market.

Time is money so our fast and easy, no nonsense maintenance program ensures you to have a maximum output of boxes per hour, in combination with low costs.
